Professional Summary

Enthusiastic and detail-oriented Frontend Developer and aspiring Full Stack Engineer with experience in HTML, CSS, Tailwind, JavaScript, and React. Skilled at creating responsive, user-friendly interfaces and bringing modern design principles to life. Currently pursuing a BS in Computer Science at ILMA University. Combines creative design knowledge from a background in Graphic Design with a growing expertise in web technologies to build secure, visually appealing, and efficient web applications. Passionate about continuous learning, problem-solving, and developing clean, scalable code for real-world use.

Work Experience

- Self-built and deployed a personal portfolio website showcasing web projects.
- Created multiple single-page applications with a focus on UI/UX using React, and Tailwind CSS.

Currently working as an IT and Cyber security Professional, managing and supporting secure systems and network infrastructure.

Achievement

Received an Appreciation Letter from the PIA Training Center for outstanding performance.

Projects

- Built a responsive personal portfolio using HTML, CSS, JavaScript, and React to showcase projects and skills.

- Built an interactive JavaScript Quiz App with randomized questions, real-time scoring, and responsive design using HTML, CSS, and JavaScript.

- Developed a Blog Web App with login/signup functionality and a simple user interface, using Local Storage to save and manage user data.

Skills

Frontend:
